

NEW DIRECTOR: GREG STEELE

Hello from Manitoba.

I am excited to be your new director and hope to meet some new friends in person, or perhaps online or on the phone.

I have retired once, and hardly have a day off! I hope to become a better horseman this year, and also learn to drive my Fjords; the most amazing, versatile, thrifty and easy to work with breed.

I have been involved with living history, historical re-enactment of the fur trade and the early years of the North West Mounted Police for over 20 years. I am daydreaming of the day I can walk into a rendezvous of buck skinners with my camp on my horses back and using my tent pole as a walking stick.

I challenge you to try something new this year - push your limits. Maybe offer a workshop or find a way to use our love of horses for some greater good. Is there a fundraising ride within you reach? Call some friends and hit the trail.

For those of you who have been members for some time, take a look at the Board of Directors. We always are looking for new members.

Don't be afraid to discuss the issue with friends and family. Perhaps you already know a good candidate. The organization will thank you.

We are losing a couple of our long term western directors this fall and if you know someone who would be great in this job please contact us and let us know. We are always open to having new ideas presented on keeping this wonderful organization vibrant.

See you down the trail.
